

HOW OUR ADVENTURE STARTED

We are an Amsterdam based lifestyle and coffee brand. It is our passion to create coffee that is loved. We offer you original and well-designed coffee: fun to buy and fun to receive!

Our design's are inspired by the official coffee taste flavor wheel. Our special coffee has an unique flavor, aroma and taste that is shown in the design. That way you can almost taste the coffee before you open our coffee gift.

Well-Designed Coffee For any kind of character

LET'S TALK ABOUT

We only select the best coffee beans, which grow in the most ideal conditions.

Our coffee is carefully selected and roasted to perfection. Each coffee requires a slightly different roast to reach a perfect aroma, body and flavor. We teamed up with the best espresso coffee roasters from The Netherlands. The coffee beans are slowly roasted with an signature roasting profile to create the best quality coffee.
